

WarshatAflam #6

Short and Medium - length writing workshop
(fictions and documentaries)

2022

OVERVIEW

Created during the 4th International Festival of Arab Cinema in November 2016, WarshAflam/The Aflam Workshop is a scheme set up with the support of the CNC's (Centre National du Cinéma) Short-Film Talent program and the Region Sud annual program supporting young artists.

Its purpose is to select and support promising young talents for the film industry. The scheme is aimed primarily at young people up to the age of 40. It is to be noticed that the workshop is not eligible to young people who have not studied cinema at university or cinema schools.

In accordance with Aflam's general project, one of the workshop's specificities is to target young filmmakers from South and North of the Mediterranean area. Therefore, each session gathers 2 young filmmakers from the Region Sud and 2 others from Arab countries.

The projects sent to Aflam (short and medium length films, fictions or documentaries – see the call for applications) will be studied by industry professionals (directors, screenwriters, producers). Together with Aflam, they will select four candidates. They will then support and supervise the selected candidates, helping them to develop their film projects.

The support will take the form of tutoring, where the more experimented will help the youngest ones to find their own path for professionalizing their projects in order to present them to producers. WarshatAflam/The Aflam Workshop is part of the Rencontres internationales de cinéma program, a festival organized by Aflam (the next edition will take place from March 24 to April 3, 2022) and dedicated to Arab cinemas, where we focus on creating exchanges between filmmakers of different ages and backgrounds.
